Dear Judy,

Thank you for your Keynote presentation for American Home Mortgage. You were a huge hit with the audience, and they are a difficult group to impress. The bit you did with acronyms was especially funny. It was great that you customized your humor for the mortgage industry.

Your message was just what everyone needed to hear – don't take life so seriously that you can't see the humor in it. I know everybody, including our Executive Management Team, wants you back!

Sincerely,
